

**Report**

**3D PETROLEUM MODELING  
AND EXPLORATION RISK  
ASSESSMENT OF THE  
SOUTHERN ESPIRITO SANTO  
BASIN**

**November 2005**

BLANK PAGE

# Contents

<b>Executive Summary</b>	5
<b>1. Introduction</b>	13
<b>2. Geologic Assessment of the Study Area</b>	15
2.1. Regional Context: the Great Campos Basin	15
2.2. Tectonic-Stratigraphic Appraisal and Mapping	21
2.3. Exploration History	52
<b>3. Source rocks, Oils and Condensates</b>	55
3.1. Introduction	55
3.2. Source Rocks Characterization	55
3.3. Hydrocarbons characterization	78
<b>4. Accumulation Models and Leads Characterization</b>	111
<b>5. 3D Petroleum System Modelling</b>	141
5.1. Introductory information	141
5.2. Building the Model (INPUT)	141
5.3. Maturity and Pressure Modeling Results	186
5.4. Petroleum Migration	249
5.5. Play Analyses	287
<b>6. Conclusions</b>	351
<b>7. References</b>	359
